

Department of Homeland Security Office of Inspector General

Compendium of Disaster Preparedness Programs

Homeland Security

June 6, 2011

Preface

The Department of Homeland Security (DHS) Office of Inspector General (OIG) was established by the *Homeland Security Act of 2002* (Public Law 107-296) by amendment to the *Inspector General Act of 1978*. This is one of a series of audit, inspection, and special reports prepared as part of our oversight responsibilities to promote economy, efficiency, and effectiveness within the department.

The DHS OIG, through the Council of the Inspectors General on Integrity and Efficiency (CIGIE), has developed an inventory of federal programs that provide disaster preparedness assistance to individuals, states, localities, nonprofit organizations, businesses, and other entities. It is based on a survey of CIGIE members and a review of the General Services Administration's *Catalog of Federal Domestic Assistance*.

We trust this report will result in more effective, efficient, and economical operations. We express our appreciation to all of those who contributed to the preparation of this report.

A handwritten signature in black ink, reading "Charles K. Edwards". The signature is written in a cursive style with a large initial "C".

Charles K. Edwards
Acting Inspector General

SDWA	Safe Drinking Water Act
USGS	United States Geological Survey

Overview

The Department of Homeland Security (DHS), Office of Inspector General (OIG), through the Council of the Inspectors General on Integrity and Efficiency (CIGIE), developed this inventory of federal programs that provide disaster preparedness assistance to individuals, states, localities, nonprofit organizations, and businesses, to help ensure the preparedness of the nation to prevent, respond to, and recover from threatened and actual disasters and emergencies.

Under Homeland Security Presidential Directive-8 (HSPD-8), the Secretary of the Department of Homeland Security, in coordination with the heads of other appropriate federal departments and agencies and in consultation with state and local governments, is charged with developing a national domestic all hazards preparedness goal. Federal departments and agencies must work to achieve this goal by:

- a) Providing for effective, efficient, and timely delivery of federal preparedness assistance to state and local governments; and
- b) Supporting efforts to ensure first responders are prepared to respond to major events, especially prevention of and response to threatened terrorist attacks.

For the purposes of this document the term “federal preparedness assistance” means federal department and agency grants, cooperative agreements, loans, loan guarantees, training, and/or technical assistance. Federal preparedness assistance is intended to enhance preparedness, protection, response, recovery, and mitigation capabilities by funding such items as planning, training, exercises, equipment, and interoperable communications.

The Homeland Security Exercise and Evaluation Program defines the preparedness mission as the range of deliberate, critical tasks, and activities necessary to build, sustain, and improve the operational capability to prevent, protect against, respond to, and recover from domestic incidents. Preparedness is a continuous process involving efforts at all levels of government and between government and private sector and non-governmental organizations to identify threats, determine vulnerabilities, and identify required resources. It is also the existence of plans, procedures, policies, training, and equipment necessary at the federal, state, and local level to maximize the ability to prevent,

respond to, and recover from major incidents. The term “readiness” can be used interchangeably with preparedness.

We began compiling this inventory by reviewing the *Catalog of Federal Domestic Assistance* (CFDA) website,¹ conducting a simple search for “emergency preparedness” to develop an initial inventory of financial and non-financial federal disaster preparedness programs. The DHS OIG then surveyed the federal Inspector General community to identify additional programs which may not have been identified or may not be available through the CFDA website. Through our collaborative effort we were able to identify 11 agencies and departments with 128 federal disaster preparedness programs. Table 1 identifies the 11 agencies and departments with disaster preparedness programs and the number of programs each agency or department oversees.

Table 1 – Agencies and Departments with Disaster Preparedness Programs

Agency or Department	Number of Disaster Preparedness Programs Identified
Corporation for National and Community Service	1
Department of Agriculture	2
Department of Commerce	13
Department of Defense	5
Department of Energy	1
Department of Health and Human Services	22
Department of Homeland Security	69
Department of the Interior	2
Department of Justice	2
Department of Transportation	5
Environmental Protection Agency	6
TOTAL	128

Source: OIG analysis of CFDA data and data provided by federal OIGs.

The Department of Homeland Security administers 69 of the federal disaster preparedness programs, or 54% of the total number of programs identified. The Department of Health and Human Services and the Department of Commerce oversee a combined 35 programs, or 27% of all the programs. The remaining 19% of the

¹ Data search in this report is as of August 2, 2010.

programs are administered by the other 8 agencies and departments.

Through the CFDA website we identified 12 different functional areas into which the disaster preparedness programs can be categorized. Table 2 lists the number of disaster preparedness programs in each functional area. Some disaster preparedness programs could fall in more than one functional area. For example, we placed the Department of Agriculture’s Emergency Conservation Program in the agriculture functional area. This program could also be categorized in the areas of civil defense or environmental quality. For simplification we assigned each program to only one functional area.

Table 2 – Disaster Preparedness Programs by Functional Area

Functional Area	Number of Disaster Preparedness Programs
Science, Technology and Education	9
Agriculture	2
Community Preparedness/Natural Disasters	31
Economic Development	3
Hazard Mitigation Assistance	9
Public Health	15
Civil Defense, Terrorism and Manmade Disasters	29
Transportation and Infrastructure	6
Workforce Development	5
Communications	6
Environmental Quality	3
Training	10

Source: OIG analysis of CFDA data and data provided by federal OIGs.

We anticipate that this inventory of programs will be used by the Inspector General community, federal departments and agencies, state and local governments and individuals as a means to become more aware of federal disaster preparedness programs.

We compiled this information under the authority of the *Inspector General Act of 1978*, as amended. We provided CIGIE members with the opportunity to verify the information in this compendium, and we have incorporated their comments where appropriate.²

² As agreed upon with CIGIE, we performed this work as a non-audit service.

In April 2009, DHS OIG, in collaboration with the CIGIE, compiled a Compendium of Disaster Assistance Programs (OIG-08-49). Because preparedness overlaps with response and recovery, some preparedness programs listed here are also identified in the Compendium of Disaster Assistance Programs.

Disaster Preparedness Programs

Department / Agency	Program Title	Objectives	Program Number
Corporation for National and Community Service	Learn and Serve America Innovative Community-Based Service-Learning Programs	For over fifteen years, the Corporation for National and Community Service—through its Senior Corps, AmeriCorps, and Learn and Serve America programs—has mobilized a new generation of engaged citizens. Learn and Serve America grants provide support to organizations that involve young people in service-learning projects that simultaneously support student development and meet community needs in areas such as the environment, education, public safety, and other human needs.	94.018
Department of Agriculture, Farm Service Agency	Emergency Conservation Program	To enable farmers to perform emergency conservation measures to control wind erosion on farmlands, to rehabilitate farmlands damaged by wind erosion, floods, hurricanes, or other natural disasters and to carry out emergency water conservation or water enhancing measures during periods of severe drought.	*10.054
Department of Agriculture, National Institute of Food and Agriculture	Cooperative Extension Service	To help people improve their lives and communities through an educational process that uses scientific knowledge focused on issues critical to the economic, agricultural, societal, health/safety, and environmental progress of all Americans, identify and solve their farm, home, and community problems through the practical application of research findings of the Department of Agriculture and the land-grant colleges and universities.	*10.500

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term “Preparedness.”

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Commerce, National Institute of Standards and Technology (NIST)	Congressionally-Identified Projects	To assist various organizations identified by Congress to achieve objectives specified by Congress. Examples of funded projects include: School Safety and Preparedness; School of Public Health Construction; Museum of Science-Program for Technological Literacy; and Bio-commodity Engineering Research Initiative.	11.617
Department of Commerce, National Oceanic and Atmospheric Administration (NOAA)	Applied Meteorological Research	Through the Collaborative Science, Technology, and Applied Research program, NOAA/National Weather Service (NWS) provides funding to the university community for highly collaborative applied research hydro-meteorological activities to create a cost-effective transition from basic and applied research to operations and services. The Remote Community Alert Systems Program represents an effort to provide for outdoor alerting technologies in remote communities effectively underserved by commercial mobile service for the purpose of enabling residents of those communities to receive emergency messages.	11.468
Department of Commerce, Economic Development Administration	Economic Adjustment Assistance	To address the needs of distressed communities experiencing adverse economic changes that may occur suddenly or over time, and generally result from industrial or corporate restructuring, new Federal laws or requirements, reduction in defense expenditures, depletion of natural resources, or natural disaster. Economic Adjustment Assistance grants are intended to enhance a distressed community's ability to compete economically by stimulating private investment in targeted areas.	*11.307

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term “Preparedness.”

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Commerce, National Oceanic and Atmospheric Administration	National Weather Service Eastern Region Automated Flood Warning Systems	The objective of the Automated Flood Warning Systems Program is to provide funding to communities with flood or flash flood problems that affect safety of life and property to assist them in creating, renovating, or enhancing Automated Flood Warning Systems.	*11.450
Department of Commerce	Census Data & Emergency Preparedness	An on-line tool that provides a live feed from the National Hurricane Center. When a storm's leading winds make landfall, the application will allow users to view the relationship between where people work and where they live, characteristics of the local workforce, such as the affected industries, the ages of workers and workers' earnings with a simple click of the link. It allows users to create, print and download workforce related maps, profiles and underlying data down to the block level.	#
Department of Commerce	Building and Fire Research Laboratory (BFRL), National Earthquake Hazards Reduction Program Administration (NEHRP), Computer-Based Clearinghouse for Retrieving NEHRP-Funded Earthquake Research	NIST is required by statute (PL 108-360) to develop and maintain "a repository of information, including technical data, on seismic risk and hazards reduction." The NEHRP Clearinghouse will facilitate the integration of National Science Foundation (NSF), United States Geological Survey (USGS), Federal Emergency Management Agency (FEMA), and NIST-funded earthquake-related research into building code provisions and earthquake hazard mitigation strategies, thereby reducing the life-cycle costs of achieving target levels of earthquake protection.	#

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term "Preparedness."

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Commerce	BFRL Project: Assessment of First Generation Performance-Based Seismic Design Methods for New Buildings	This project benchmarks performance-based seismic design methods that are promulgated for existing buildings in American Society of Civil Engineers 41[1] for their application to new buildings designed per the American Society of Civil Engineers 7[2]. Both structural steel and reinforced concrete building structures will be investigated.	#
Department of Commerce	National Tsunami Preparedness and Response Programs	Tsunami Ready helps community leaders and emergency managers strengthen their local operations. Tsunami Ready communities are better prepared to save lives through better planning, education and awareness.	#
Department of Commerce	Hurricane Preparedness	An on-line tool that provides basic hurricane safety actions, information for actions to take based on specific hurricane hazards.	#
Department of Commerce	Emergency Response	The Office of Response and Restoration addresses and evaluates coastal contamination, works with communities to address critical local and regional coastal challenges, and restores and monitors coastal and estuarine habitat.	#
Department of Commerce	Emergency Alert System (EAS)	EAS sends out alerts to broadcast media and also to cable television, satellites, pagers, Direct Broadcast Satellite, High Definition Television, and Video Dial Tone. EAS also accounts for the needs of special populations such as the deaf and those with special language requirements. In 1996, EAS replaced the Emergency Broadcast System.	#

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term “Preparedness.”

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Commerce	Remote Sensing for Coastal Management	The NOAA Coastal Services Center works with various branches of NOAA and other federal agencies to bring information, services, and technology to the nation's coastal resource managers. The Center is a partner in over 100 ongoing projects geared to site-specific coastal issues. Remote Sensing for Coastal Management has airborne sensors, shipboard sensors, moderate resolution satellites, and high resolution satellites that are used for fire detection and mapping, law enforcement search and rescue, emergency response planning, evacuation routing and updating.	#
Department of Commerce	NOAA Weather Radio All Hazards	NOAA Weather Radio (NWR) All Hazards is a nationwide network of radio stations broadcasting continuous weather information directly from the nearest National Weather Service office. NWR broadcasts official Weather Service warnings, watches, forecasts and other hazard information 24 hours a day, 7 days a week. In conjunction with Federal, State, and Local Emergency Managers and other public officials, NWR also broadcasts warning and post-event information for all types of hazards – including natural (such as earthquakes or avalanches), environmental (such as chemical releases or oil spills), and public safety (such as AMBER alerts or 911 telephone outages).	#
Department of Defense (DOD), Office of the Chief of Engineers	Flood Plain Management Services	To promote appropriate recognition of flood hazards in land and water use planning and development through the provision of flood and flood plain related data, technical services, and guidance.	*12.104
Department of Defense, Office of the Chief of Engineers	Flood Control Projects	To reduce flood damages through projects not specifically authorized by Congress.	12.106

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term “Preparedness.”

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Defense, U.S. Northern Command (NORTHCOM)	Vigilant Guard Exercises	Facilitated by the National Guard Bureau and NORTHCOM, Vigilant Guard is a federally funded program through the U.S. Department of Homeland Security that requires states to conduct exercises to improve preparedness for emergency and disaster response. Vigilant Guard affords an opportunity to test skills that enable the National Guard participants and emergency responders to be better prepared, to address shortfalls in policy, personnel and resources and to make productive changes. It enables participants to work together and forge relationships with regional emergency response partners, experience the strengths and effectiveness of their plans and procedures and to receive valuable feedback from evaluators and other participants in post-exercise reviews. Evaluation includes a post-exercise report with detailed recommendations for improvement and guidance for future events.	#
Department of Defense, Force Health Protection and Readiness	Civil-Military Medicine	Civil-Military Medicine (CMM) develops policies and oversees programs concerning Military Health System response to disasters; public health emergencies and mass casualty events involving military personnel, DOD employees and DOD beneficiaries; as well as military support for civilian authorities and the general public. CMM coordinates the Military Health Systems leadership role within the federally-sponsored National Disaster Medical System to provide response teams, patient transport and definitive hospital care during mass casualty events. The Military Health System, guided by CMM, also is a key partner in the National Response Framework, providing significant health and medical support to other federal agencies during nationally-declared disasters.	#

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term “Preparedness.”

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Defense	Seminar on Transatlantic Civil Security	The Seminar on Transatlantic Civil Security provides civil security professionals from Europe, Eurasia and North America an in-depth look at how nations can effectively address domestic security issues that have regional and international impact. The three-week seminar examines best practices for ensuring civil security and preventing, preparing for and managing the consequences of domestic and regional crises and disasters.	#
Department of Energy	Transport of Transuranic Wastes to the Waste Isolation Pilot Plant: States and Tribal Concerns, Proposed Solutions	To enlist cooperation among the Tribal and the Southern, Western, Northeast, and Midwest state governments along the Waste Isolation Pilot Plant shipping corridors in developing plans and procedures for the safe and uneventful transportation of transuranic waste from current temporary storage facilities to the Waste Isolation Pilot Plant.	81.106
Department of Health and Human Services, Office of the Secretary	Environmental Public Health and Emergency Response	To bring public health and epidemiologic principles together to identify, clarify, and reduce the impact of complex environmental threats, including terrorist threats and natural disasters, on populations, domestic and foreign. These programs and activities focus on safeguarding the health of people from environmental threats; providing leadership in the use of environmental health sciences-including environmental epidemiology, environmental sanitation, and laboratory sciences-to protect public health; and responding to issues and sharing solutions to environmental health problems worldwide.	93.007

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term “Preparedness.”

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Health and Human Services, Office of the Secretary	Medical Reserve Corps Small Grant Program	To support the development of Medical Reserve Corps units in communities throughout the United States to: (1) increase capacity at the community level to respond during emergencies which have medical consequences, and (2) improve public health in communities through volunteerism on an ongoing basis.	93.008
Department of Health and Human Services, Centers for Disease Control and Prevention	Laboratory Leadership, Workforce Training and Management Development, Improving Public Health Laboratory Infrastructure	To promote and maintain a collaborative relationship with the Association of Public Health Laboratories that includes the National Laboratory Training Network and the National Laboratory Partnership for the purpose of: (1) improving public health laboratory infrastructure; (2) maintaining a competent and trained laboratory workforce; (3) promoting laboratory leadership activities to ensure future laboratory leaders; (4) ensuring laboratory preparedness for emerging infectious diseases or other biologic and chemical public health threats; (5) promoting technology transfer to ensure up-to-date technologies for the testing laboratory; and (6) enhancing communication linkages between state and local public health laboratories, and the clinical laboratory testing community.	93.065
Department of Health and Human Services, Centers for Disease Control and Prevention	Public Health Emergency Preparedness	To develop emergency-ready public health departments by upgrading, integrating and evaluating State and local public health jurisdictions' preparedness for and response to terrorism, pandemic influenza, and other public health emergencies with Federal, State, local, and tribal governments, the private sector, and non-governmental organizations. These emergency preparedness and response efforts are intended to support the National Response Plan and the National Incident Management System.	93.069

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfd.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term "Preparedness."

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Health and Human Services, Centers for Disease Control and Prevention	Immunization Grants	To assist States and communities in establishing and maintaining preventive health service programs to immunize individuals against vaccine-preventable diseases (including measles, rubella, poliomyelitis, diphtheria, pertussis, tetanus, hepatitis B, hepatitis A, varicella, mumps, haemophilus influenza type b, influenza, and pneumococcal pneumonia).	93.268
Department of Health and Human Services, Centers for Disease Control and Prevention	Complex Humanitarian Emergency and War-Related Injury Public Health Activities	To bring public health and epidemiologic principles to the aid of populations affected by complex humanitarian emergencies. Work will focus on the following main program areas: (1) providing technical assistance including rapid health and nutrition assessments, public health surveillance, epidemic investigations, disease prevention and control, program evaluation and emergency preparedness; (2) developing, implementing and disseminating findings from operational research projects aimed at developing more effective public health interventions; (3) designing, implementing, and evaluating training activities to strengthen the capacity of the Center for Disease Control, other U.S. government agencies, international and private voluntary organizations, other governments, and public health students; (4) developing and disseminating guidelines on public health issues and technical areas; and (5) planning and maintaining partnerships with strategic international, bilateral, and non-governmental relief organizations.	93.269

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term “Preparedness.”

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Health and Human Services, Centers for Disease Control and Prevention	American Recovery and Reinvestment Act (ARRA) - Immunization	The ARRA appropriated \$300 million to the Section 317 Immunization program (Section 317) which funds 64 immunization programs that include all 50 states, Washington DC, 5 urban areas, the U.S. Territories, and selected Pacific Island nations. Funding supports states and communities in establishing and maintaining preventive health service programs to immunize individuals against vaccine-preventable diseases.	93.712
Department of Health and Human Services, Centers for Disease Control and Prevention	ARRA - Preventing Healthcare-Associated Infections	This funding was appropriated under ARRA. The funds are intended to reduce preventable healthcare-associated infections through State health department efforts to prevent Healthcare Associated Infections including leveraging the National Health Care Safety Network to support the dissemination of the Department of Health and Human Services evidence-based practices within hospitals (\$40 million).	93.717
Department of Health and Human Services, Food and Drug Administration	Food Safety and Security Monitoring Project	To complement, develop and improve State, Tribal, and local food safety and security testing programs through the provision of supplies, personnel, facility upgrades, training in current food testing methodologies and participation in proficiency testing to establish additional reliable laboratory sample analysis capacity and analysis of surveillance samples.	93.448
Department of Health and Human Services, Food and Drug Administration	Ruminant Feed Ban Support Project	To assist in an increased surveillance presence throughout the commercial feed channels to prevent the introduction or amplification of Bovine Spongiform Encephalopathy in the United States.	93.449

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfd.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term "Preparedness."

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Health and Human Services, Health Resources and Services Administration	Emergency Medical Services for Children	To support demonstration projects for the expansion and improvement of emergency medical services for children who need treatment for trauma or critical care.	93.127
Department of Health and Human Services, Health Resources and Services Administration	ARRA - Emergency Medical Services for Children	To support demonstration projects for the expansion and improvement of emergency medical services for children who need treatment for trauma or critical care, as funded under ARRA 2009.	93.418
Department of Health and Human Services, Health Resources and Services Administration	Trauma Care Systems Planning and Development	To administer grants to States and Territories for the purpose of developing, implementing, and improving State-wide trauma care systems.	93.952

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term “Preparedness.”

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Health and Human Services, Health Resources and Services Administration	Bioterrorism Training and Curriculum Development Program	To develop a health care workforce with the knowledge, skills, abilities and core competencies to: (1) recognize indications of a terrorist event; (2) meet the acute care needs of patients in a safe and appropriate manner; (3) participate in a coordinated, multidisciplinary response to terrorist events and other public health emergencies, and include consideration of surge capacity issues; and (4) rapidly and effectively alert the public health system of such an event at the community, State, and national level. The Bioterrorism Training and Curriculum Development Program consists of two discrete foci of activity: (1) Provision of Continuing Education for Practicing Providers; and (2) Curriculum Development in Health Professions Schools.	93.996
Department of Health and Human Services, Office of the Secretary	Public Health and Social Services Emergency Fund	To provide supplemental funding for public health and social service emergencies.	*93.003
Department of Health and Human Services, Office of the Secretary	Emergency System for Advance Registration of Volunteer Health Professionals	Establish and maintain a national interoperable network of state systems. Each system is maintained by a State or group of States for the purpose of verifying the credentials, certifications, licenses, relevant training, and hospital privileges of health care professionals who volunteer to provide health services during a public health emergency.	93.089
Department of Health and Human Services, Office of the Secretary	National Bioterrorism Hospital Preparedness Program	To ready hospitals and other healthcare systems, in collaboration with other partners, to deliver coordinated and effective care to victims of terrorism and other public health emergencies.	*93.889

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfd.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term "Preparedness."

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Health and Human Services, Agency for Toxic Substance and Disease Registry	Surveillance of Hazardous Substance Emergency Events	To assist State health departments in developing a State-based surveillance system for monitoring hazardous substance emergency events. This surveillance system will allow the State health department to better understand the public health impact of hazardous substance emergencies by developing, implementing, and evaluating a State-based surveillance system.	93.204
Department of Health and Human Services, Centers for Disease Control and Prevention	The Affordable Care Act: Building Epidemiology, Laboratory, and Health Information Systems Capacity in the Epidemiology and Laboratory Capacity for Infectious Disease and Emerging Infections Program Cooperative Agreement	To provide for expanded and sustained national investment in prevention and public health programs to improve health and help restrain the rate of growth in private and public sector health care costs. The programs play a critical role in strengthening national infectious disease infrastructure by serving as collaborative platforms for state and local health departments, Centers for Disease Control and Prevention programs, and academic and various other public health partners to improve the ability to detect and respond to emerging infectious diseases and other public health threats.	93.521
Department of Health and Human Services, Centers for Disease Control and Prevention	The Affordable Care Act: Capacity Building Assistance to Strengthen Public Health Infrastructure and Performance	This program will help State, tribal, local and U.S. territorial health departments by making available to them capacity building assistance. The overall goal of capacity building assistance is to ensure improvements in the public health infrastructure so that it is prepared for responding to both acute and chronic threats relating to the Nation's health such as emerging infections, disparities in health status, and increases in chronic disease and injury rates.	93.524

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term "Preparedness."

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Health and Human Services, National Institute of Health	Medical Library Assistance	To improve health information services by providing funds to train professional personnel; to conduct research in biomedical informatics, bioinformatics and related computer and information sciences; to facilitate management of electronic health science information; to plan, develop and test feasibility of advanced information tools through Small Business Research Innovation and Small Business Technology Transfer grants. Areas of research interest include: informatics topics relevant to public health and informatics for disaster management.	93.879
Department of Health and Human Services, Substance Abuse and Mental Health Services Administration	Mental Health Disaster Assistance and Emergency Mental Health	To provide supplemental emergency mental health counseling to individuals affected by major disasters, including the training of workers to provide such counseling.	*93.982
Department of Homeland Security	State and Local Homeland Security Training Program	Cooperative agreements are awarded to eligible applicants to design, develop, and deliver training content and support for Federal, State, local, and tribal jurisdictions in accordance with FEMA doctrine and approved Homeland Security Strategies.	97.005
Department of Homeland Security	Homeland Security Preparedness Technical Assistance Program	To provide direct assistance to State, regional, local and tribal jurisdictions as well as other homeland security organizations, to improve their ability to prevent, protect against, respond to, and recover from major events, including threats or acts of terrorism.	*97.007

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term “Preparedness.”

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Homeland Security	Urban Areas Security Initiative	To support the unique multi-discipline planning, operations, equipment, training, and exercise needs of high threat, high density Urban Areas, and to assist them in building and sustaining capabilities to prevent, protect against, respond to, and recover from threats or acts of terrorism.	*97.008
Department of Homeland Security	National Fire Academy Training Assistance	To provide travel stipends to students attending Academy courses.	97.018
Department of Homeland Security	National Fire Academy Educational Program	To provide professional development experience for fire service authorities who have demonstrated significant leadership accomplishment.	97.019
Department of Homeland Security	Hazardous Materials Assistance Program	To support States, local and tribal governments in oil and hazardous materials emergency planning and exercises and enhance their capabilities to interact with the National Response System; through the States, provide technical and financial assistance to support activities under the Comprehensive Hazardous Materials Emergency Response - Capability Assessment Program.	*97.021
Department of Homeland Security	Community Assistance Program State Support Services Element	The purpose of this program is to provide, through a State grant mechanism, a means to ensure that communities participating in the National Flood Insurance Program (NFIP) are achieving flood loss reduction goals of the NFIP. Community Assistance Program-State Support Services Element funds are to be used by States to provide technical assistance to NFIP communities, to evaluate community implementation/performance of NFIP floodplain management activities, and to build State and community floodplain management expertise and capacity.	*97.023

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term “Preparedness.”

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Homeland Security	Emergency Food and Shelter National Board Program	To supplement and expand ongoing efforts to provide shelter, food, and supportive services for needy families and individuals. To strengthen efforts to create more effective and innovative local programs by providing supplemental funding for them. To conduct minimum rehabilitation of existing mass shelter or mass feeding facilities, but only to the extent necessary to make facilities safe, sanitary and bring them into compliance with local building codes.	*97.024
Department of Homeland Security	National Urban Search and Rescue Response System	Develop, maintain, deploy, coordinate, and support National Urban Search and Rescue resources on-scene to locate, provide initial medical treatment, and extricate victims of incidents requiring specialized search and rescue operations while simultaneously enhancing the Urban Search and Rescue response capabilities of State and local governments.	*97.025
Department of Homeland Security	Emergency Management Institute Training Assistance	To defray travel and per diem expenses of State, local, and tribal emergency management personnel who attend training courses conducted by the Emergency Management Institute, at the Emmitsburg, Maryland facility; Nobel Training Center at the Center for Domestic Preparedness in Anniston, Alabama; and selected off-site locations. Its purpose is to improve emergency management practices among State, local, and tribal government managers, in response to emergencies and disasters.	*97.026
Department of Homeland Security	Emergency Management Institute Independent Study Program	The program currently consists of 84 courses available to participants, with the objective of enhancing public and selected audience knowledge of emergency management practices among officials of Federal, State, local, and tribal governments and voluntary organizations in response to emergencies and disasters.	*97.027

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term “Preparedness.”

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Homeland Security	Emergency Management Institute Resident Educational Program	To improve emergency management practices among State, local and tribal government managers, and Federal officials in response to emergencies and disasters. Programs embody the Comprehensive Emergency Management System by unifying the elements of management common to all emergencies: planning, preparedness, mitigation, response, and recovery.	*97.028
Department of Homeland Security	Hazard Mitigation Grant	To provide States and local governments financial assistance to implement measures that will permanently reduce or eliminate future damages and losses from natural hazards through safer building practices and improving existing structures and supporting infrastructure.	*97.039
Department of Homeland Security	Chemical Stockpile Emergency Preparedness Program	To enhance emergency preparedness capabilities of the States, local, and tribal communities at each of the six chemical agent stockpile storage facilities. The purpose of the program is to assist States and local communities in efforts to improve their capacity to plan for and respond to accidents associated with the storage and ultimate disposal of chemical warfare materials.	*97.040
Department of Homeland Security	National Dam Safety Program	To support State governments and the Commonwealth of Puerto Rico in the development and maintenance of dam safety programs. To enable States and the Commonwealth of Puerto Rico to take precautions that ensure the safety of the dams, such as the development of regulatory authority for the design, construction, operation, and maintenance of dams, the undertaking of dam inspections, and development of Emergency Action Plans for dams.	*97.041

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term “Preparedness.”

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Homeland Security	Emergency Management Performance Grants	To provide resources to assist State and local governments to sustain and enhance all-hazards emergency management capabilities. All-hazards approach to emergency response, including the development of a comprehensive program, planning, training, exercises, sets the stage for an effective and consistent response to any threatened or actual disaster or emergency, regardless of the cause. States have the opportunity to use Emergency Management Performance Grant funds to further strengthen their ability to support emergency management activities while simultaneously addressing issues of national concern as identified in the National Priorities of the National Preparedness Guidelines.	*97.042
Department of Homeland Security	State Fire Training Systems Grants	To provide financial assistance to State Fire Training Systems for the delivery of a variety of National Fire Academy courses/programs, administrative costs, and electronic student feedback.	97.043
Department of Homeland Security	Assistance to Firefighters Grant	To provide financial assistance directly to fire departments and nonaffiliated Emergency Medical Support organizations to enhance their capabilities with respect to fire and fire-related hazards. To help fire departments and nonaffiliated Emergency Medical Service organizations meet their firefighting and emergency response needs. To support organizations that lack the tools and resources necessary to more effectively protect the health and safety of the public and their emergency response personnel with respect to fire and all other hazards.	97.044

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term “Preparedness.”

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Homeland Security	Cooperating Technical Partners	To increase local involvement in, and ownership of, the production development and maintenance of Digital Flood Insurance Rate Maps, flood hazard maps produced for the NFIP. To build and maintain partner capabilities, continue to increase local ownership of data and processes, establish sound performance criteria for current Cooperating Technical Partners, and to define a career path for potential cooperating technical partners to join the program.	*97.045
Department of Homeland Security	Pre-Disaster Mitigation	Provide funding support to states, tribes, territories, communities, and public colleges and universities for pre-disaster mitigation planning and projects primarily addressing natural hazards.	*97.047
Department of Homeland Security	Emergency Operations Centers	The purpose of the Emergency Operations Center Grant Program is to improve emergency management and preparedness capabilities by supporting flexible, sustainable, secure, and interoperable emergency operations centers with a focus on addressing identified deficiencies and needs. This program provides funding for construction or renovation of a state, local or tribal government's principal emergency operations center. Fully capable emergency operations facilities at the state and local levels are an essential element of a comprehensive national emergency management system and are necessary to ensure continuity of operations and continuity of government in major disasters cause by any hazard.	*97.052

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term "Preparedness."

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Homeland Security	Citizen Corps	To bring together government and community leaders and involve citizens in all-hazards emergency preparedness and resilience. Citizen Corp strives to harness the power of every individual through education, training, and volunteer service to make communities safer, stronger, and better prepared to respond to threats of terrorism, crime, public health issues, and disasters of all kinds.	*97.053
Department of Homeland Security	Interoperable Communications Equipment	Provides governance, planning, training and exercise funding to States, territories, and local and tribal governments to carry out initiatives to improve interoperable emergency communications, including communications in collective response to natural disasters, acts of terrorism, and other man-made disasters. All activities proposed under the program must be integral to interoperable emergency communications and must be aligned with the goals, objectives, and/or initiatives identified in the grantee's approved Statewide Communication Interoperability Plan. The Program provides the flexibility to purchase interoperable communications equipment.	*97.055
Department of Homeland Security	Port Security Grant Program	To provide funds to port areas for the protection of critical port infrastructure from terrorism. To assist ports enhancing maritime domain awareness, improving risk management capabilities to prevent, detect, respond to and recover from attacks involving improvised explosive devices and other non-conventional weapons, as well as training and exercises and Transportation Worker Identification Credential implementation. The Port Security Grant Program also provides funding to eligible ferry systems within eight specific priorities.	97.056

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term "Preparedness."

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Homeland Security	Intercity Bus Security Grants	To create a sustainable program for the protection of intercity bus systems and the traveling public from terrorism. To assist operators of fixed-route intercity and charter bus services in obtaining the resources required to support security measures such as enhanced planning, facility security upgrades, exercises, improved communication capabilities, and vehicle and driver protection.	97.057
Department of Homeland Security	Operation Safe Commerce Cooperative Agreement Program	To explore commercially viable options to enhance cargo security, including business processes and technology prototypes, which support containerized cargo supply chain security management while facilitating the flow of trade.	97.058
Department of Homeland Security	Truck Security Program	In FY 2009, the focus is on the adoption and implementation of the Transportation Security Administration's voluntary security action items for transporting Tier I Security Sensitive materials; development of plans to improve effectiveness of transportation and distribution of supplies and commodities during catastrophic events; and the development of a system for DHS to monitor, collect, and analyze tractor trailer tracking information.	97.059
Department of Homeland Security	Homeland Security Information Technology Research, Testing, Evaluation and Demonstration Program	To foster and identify novel uses of existing 'state-of-the-art' information technology that will remove barriers and/or improve information sharing and integration of State and local public safety interoperability communications.	97.066

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term "Preparedness."

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Homeland Security	Centers for Homeland Security	Establishment of a coordinated, university-based system to enhance the Nation's homeland security. The DHS Centers are envisioned to be an integral and critical component of the new homeland security complex that will provide the Nation with a robust, dedicated and enduring capability that will enhance our ability to anticipate, prevent, respond to, and recover from terrorist attacks. These Centers will also provide a locus to attract and retain the Nation's best and brightest academic scholars in pursuit of homeland security related disciplines. The DHS Centers will complement other programs within the Department (including the Homeland Security Advanced Research Projects Agency) and in other Federal agencies that fund projects-focused research aimed at the development and deployment of specific homeland security technologies and capabilities.	97.061
Department of Homeland Security	Scholars and Fellows, and Educational Programs	The objectives of this program are: (1) to increase the intellectual capacity, skills and talents, especially those of U.S. citizens in areas of relevance to homeland security; (2) to attract undergraduate and graduate students to obtain advanced degrees in disciplines of importance to homeland security; (3) to provide advanced professional and research development opportunities for fellows, scholars and faculty in targeted areas; and (4) to increase a diverse and highly talented cadre of new and emerging science and technology expertise working in areas of importance and need to homeland security.	97.062
Department of Homeland Security	Homeland Security Advanced Research Projects Agency	To fund research and technology development in support of Homeland Security.	97.065

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term "Preparedness."

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Homeland Security	Homeland Security Grant Program	To enhance the ability of State, local and tribal governments to prepare, prevent, respond to, and recover from terrorist attacks and other disasters. The Homeland Security Grant Program is the primary funding mechanism for building and sustaining national preparedness capabilities.	97.067
Department of Homeland Security	Competitive Training Grants	To support eligible organizations in designing, developing, and delivering homeland security preparedness training to first responders and/or citizens. The Homeland Security National Training Program supports objectives delineated in a series of post 9/11 laws, strategy documents, plans, and Homeland Security Presidential Directives, including the National Preparedness Guidelines.	*97.068
Department of Homeland Security	Map Modernization Management Support	To increase local involvement in, and ownership of, management of, the development and maintenance of flood hazard maps produced for the National Flood Insurance Program.	*97.070
Department of Homeland Security	Metropolitan Medical Response System	The Metropolitan Medical Response System program provides funding to designated localities to assist in maintaining and updating plans, delivering training, purchasing equipment and pharmaceuticals, and conducting exercises. The mission of the Metropolitan Medical Response System is to enhance local medical incident management's ability to coordinate and respond to a mass casualty event during the crucial first hours, until significant external resources arrive and become operational.	*97.071

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term "Preparedness."

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Homeland Security	National Explosives Detection Canine Team Program	The National Explosives Detection Canine Program exists to deter and detect the introduction of explosives devices into the transportation system. Explosives detection canine teams are a proven reliable resource to detect explosives and are a key component in a balanced counter-sabotage program. The use of highly trained explosives detection canine teams is also a proven deterrent to terrorism directed towards transportation systems and provides a timely and mobile response to support facilities, rail stations, airports, passenger terminals, seaports and surface carriers.	97.072
Department of Homeland Security	Law Enforcement Terrorism Prevention Program	The Law Enforcement Terrorism Prevention Program seeks to provide law enforcement communities with enhanced capabilities for detecting, deterring, disrupting, and preventing acts of terrorism. The Law Enforcement Terrorism Prevention Program is focusing on providing resources to law enforcement and public safety communities (working with their private partners) to support critical terrorism prevention activities such as establishing/enhancing fusion centers and collaborating with non-law enforcement partners, other government agencies, and the private sector.	97.074
Department of Homeland Security	Rail and Transit Security Grant Program	To create sustainable programs for the protection of critical bus, rail, and ferry system infrastructure from terrorism, with special emphasis on the use of explosives and non-conventional threats which would result in major loss of life and severe disruption.	97.075

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term "Preparedness."

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Homeland Security	Homeland Security Research Testing, Evaluation, and Demonstration of Technologies Related to Nuclear Detection	To provide funding and/or property for the purpose of conducting research, testing, evaluation, and demonstration of homeland security technologies related to nuclear detection intended to identify, counter, or respond to terrorist threats.	97.077
Department of Homeland Security	Buffer Zone Protection Program	The Buffer Zone Protection Program provides funding for the planning, equipment, and management of protective actions, to support the objective of protecting, securing, and reducing vulnerabilities of identified critical infrastructure and key resource sites.	97.078
Department of Homeland Security	Public Alert Radios for Schools	To disseminate public alerts and warnings by providing Public Alert Radios to eligible schools. Public alerts and warnings can be disseminated nationwide, regionally, or locally. This program will: a) expand delivery of public alert services to designated schools; and b) enhance and strengthen the capability of designated schools to provide alert and warning information directly to students and the public.	*97.079
Department of Homeland Security	Information Analysis Infrastructure Protection and Critical Infrastructure Monitoring and Protection	To provide financial or nonfinancial support to explore the feasibility and viability of commercially available protective measure technology to nonfederal entities, through pilot or demonstration projects, or as directed by Congress, to support monitoring of critical infrastructure, initiatives, programs and projects.	97.080

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term “Preparedness.”

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Homeland Security	Law Enforcement Training and Technical Assistance	The primary objective of the Federal Law Enforcement Training Center is to provide training to Federal law enforcement agencies; however, advanced and specialized training is also provided to state, local, tribal, and campus law enforcement agencies.	97.081
Department of Homeland Security	Earthquake Consortium	The purpose of this funding opportunity is to support the Central U.S. Earthquake Consortium, Northeast States Emergency Consortium, Western States Seismic Policy Council, and the Cascadia Region Earthquake Workshop in: delivering education and training to community and State officials; developing seismic policies, sharing information, and promoting programs to reduce earthquake-related losses; reducing the loss of life, injuries, property losses, and social and economic disruption that results from all hazards.	*97.082
Department of Homeland Security	Staffing for Adequate Fire and Emergency Response	To increase the number of firefighters in local communities and to help them meet industry minimum standards and attain 24/7 staffing for adequate protection against fire and fire-related hazards, and fulfill related roles associated with fire departments.	97.083
Department of Homeland Security	Homeland Security Outreach, Education, and Technical Assistance	To provide funding for outreach, education, and technical assistance in order to raise public awareness of homeland security issues and to work with communities to help them forge partnerships across agencies and disciplines to address preparedness and response.	97.086
Department of Homeland Security	Homeland Security Biowatch Program	To provide funding and/or property for the conduct of operations and other related activities intended to identify, counter, or respond to biological and chemical threats.	97.091

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term “Preparedness.”

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Homeland Security	Repetitive Flood Claims	To assist States, tribal governments, and communities to reduce or eliminate the long-term risk of flood damage to structures insured under the NFIP that have had one or more claims for flood damages through mitigation activities that are in the best interest of the National Flood Insurance Fund.	*97.092
Department of Homeland Security	Fire Service Hazardous Materials Preparedness and Response	Provide information to the fire and emergency services community, emergency managers, and other local government officials concerning issues related to the planning, mitigation, prevention, and response to hazardous materials incidents which includes acts of terrorism.	*97.093
Department of Homeland Security	Prevention Advocacy Resources and Data Exchange Program	To assist State and local fire marshals to implement prevention programs and conduct other networking activities with their counterparts. Provide financial assistance to the Prevention Advocacy Resources and Data Exchange regional networks to support exchange and sharing of fire prevention/protection related materials, risk analysis, hazard reduction, best practices, trend analysis, and related information.	97.094
Department of Homeland Security	Safe Kids Worldwide	Provide financial assistance to reduce fire deaths and injuries among children under the age of 14 by educating them in fire safety awareness, fire safety techniques, and providing fire safety equipment.	97.095
Department of Homeland Security	Commercial Equipment Direct Assistance Program	To provide direct assistance to State, Regional, local and tribal jurisdictions to improve their ability to prevent, protect against, respond to, and recover from various types of emergency situations and major events, including threats or acts of terrorism.	97.096
Department of Homeland Security	Training Resource and Data Exchange	Support the national exchange and sharing of fire/emergency service training related materials and information.	97.097

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term “Preparedness.”

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Homeland Security	Disaster Donations Management Program	To distribute technology solutions to State government and Non-profit Organizations throughout the country prior to a major event, through the Aidmatrix Foundation/FEMA. This will allow end-users to incorporate technology solutions into their planning, increasing their capacity to respond quickly and effectively once a disaster occurs.	*97.098
Department of Homeland Security	Residential Fire Safety & Fire Sprinkler Initiatives	To support residential fire safety initiatives such as: promoting public awareness of fire protection systems e.g., smoke alarms, and automatic sprinklers; supporting consumer awareness of residential fire sprinkler systems through provision of educational materials, public service announcement kits, and newsletters/media releases to the public, home building, and fire protection industry.	97.099
Department of Homeland Security	Firefighter/Emergency Medical Services Outreach, Technology Transfer, Information Dissemination, and Technical Assistance	To support firefighter/emergency medical service health and safety issues, technology transfer, technical assistance, and information dissemination/outreach efforts.	97.105
Department of Homeland Security	State Homeland Security Program	To build capabilities to prevent, deter, respond to, and recover from incidents of terrorism at the State and local levels through planning, equipment, training, and exercise activities and support the implementation of State homeland security strategies and key elements of the national preparedness architecture, including the National Preparedness Goal, the National Incident Management System and the National Response Plan.	*97.073

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term “Preparedness.”

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Homeland Security	Securing the Cities	The overall goal of the Securing the Cities initiative is to prevent a Radiological/Nuclear attack on high risk urban areas by enhancing regional capabilities to detect, identify, and interdict illicit radioactive materials in and around urban areas.	97.106
Department of Homeland Security	National Incident Management System	To support the development, integration, and deployment of incident management systems. This includes operational, technical and programmatic standards in support of nationwide implementation of the National Incident Management System model; establish a unified approach to incident management as well as standard command and management structures.	97.107
Department of Homeland Security	Homeland Security, Research, Testing, Evaluation, and Demonstration of Technologies	To provide funding and/or property for the purpose of conducting research, testing, evaluation, and demonstration of homeland security technologies intended to identify, counter, or respond to terrorist threats.	97.108
Department of Homeland Security	Regional Catastrophic Preparedness Grant Program	The goal of the Regional Catastrophic Preparedness Grant Program is to support an integrated planning system that provides for regional all-hazard planning for catastrophic events and the development of necessary plans, protocols, and procedures to manage a catastrophic event.	*97.111
Department of Homeland Security	Rail and Transit Security Grant Program	To create sustainable programs for the protection of critical bus and infrastructure from terrorism, with special emphasis on construction projects which address the most significant risks and can also be completed in a timely fashion.	97.113

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term “Preparedness.”

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Homeland Security	Emergency Food and Shelter National Board Program (ARRA)	To supplement and expand ongoing efforts to provide shelter, food, and supportive services for needy families and individuals. To strengthen efforts to create more effective and innovative local programs by providing supplemental funding for them. To conduct minimum rehabilitation of existing mass shelter or mass feeding facilities, but only to the extent necessary to make facilities safe, sanitary and bring them into compliance with local building codes.	97.114
Department of Homeland Security	Assistance to Firefighters Grant	To provide financial assistance directly to fire departments to enhance their capabilities with respect to fire and fire-related hazards. To provide financial assistance in the construction, upgrading or rehabilitation of fire stations.	97.115
Department of Homeland Security	Port Security Grant Program	To create a sustainable program for the protection of regulated ports from terrorism, with one priority on construction projects which address the most significant risks and can also be completed in a timely fashion.	97.116
Department of Homeland Security	Border Interoperability Demonstration Project	To identify solutions that facilitates emergency communications along and across the border and ensures emergency response providers can communicate during natural disasters, acts of terrorism, and other man-made disasters.	97.120
Department of Homeland Security	Radiological/Nuclear Detection Pilot Evaluations Program	Pilot evaluations of equipment and Concepts of Operations for use to address the overall risk of illicit radiological/nuclear materials entering our Nation.	97.121
Department of Homeland Security	Bio-Preparedness Collaboratory	This is a demonstration project that would support the development of a comprehensive, statewide system to analyze public health trends and detect incidents that may threaten homeland security.	*97.122

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term “Preparedness.”

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Homeland Security	Multi-State Information Sharing and Analysis Center	Support the activities of the Multi-State Information Sharing and Analysis Center, involving cyber security protections for State, Tribal and local governments.	*97.123
Department of the Interior, Bureau of Indian Affairs	Indian Community Fire Protection	To provide funds to perform fire protection services for Tribal Governments that do not receive fire protection support from State or local government.	15.031
Department of the Interior, Bureau of Land Management	National Fire Plan - Wildland Urban Interface Community Fire Assistance	To implement the National Fire Plan and assist communities at risk from catastrophic wild land fires by providing assistance in the following areas: Provide community programs that develop local capability including assessment and planning, mitigation activities, and community and homeowner education and action; plan and implement hazardous fuels reduction activities, including the training, monitoring or maintenance associated with such hazardous fuels reduction activities, on federal land, or on adjacent nonfederal land for activities that mitigate the threat of catastrophic fire to communities and natural resources in high risk areas; enhance local and small business employment opportunities for rural communities; enhance the knowledge and fire protection capability of rural fire districts by providing assistance in education and training, protective clothing and equipment purchase, and mitigation methods on a cost share basis.	15.228
Department of Justice, Bureau of Justice Assistance	State and Local Anti-Terrorism Training	To provide specialized, terrorism/extremism orientation, interdiction, investigation, and prevention to state and local law enforcement executives, command personnel, intelligence officers, investigators, analytical personnel, training directors, and prosecutors.	16.614

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term “Preparedness.”

Indicates no CFDA number identified.

Department / Agency	Program Title	Objectives	Program Number
Department of Justice, Bureau of Justice Assistance	Nationwide Suspicious Activity Reporting Initiative	A Department of Justice and White House initiative to support the nationwide deployment of suspicious activity reports to 72 state and urban area fusion centers throughout the country. The solution addresses policy, training (executive, supervisory, and line officer), implementation (technical and operational needs) and provision/support of tools such as the nsi.ncirc.gov website.	#
Department of Transportation, Federal Transit Administration	Public Transportation Research	The Federal Transit Administration's research program seeks to deliver solutions that improve public transportation. Its primary goals are to increase transit ridership, improve safety and emergency preparedness, improve capital operating efficiencies, protect the environment and promote energy independence, and provide transit research leadership.	20.514
Department of Transportation, Federal Transit Administration	Connecting Communities	Connecting Communities Public Transportation Emergency Preparedness Workshop is to improve public agency interoperability during incidents. The workshop is designed to foster dialogue and planning efforts between transit systems, emergency service agencies, and other emergency management partners. Connecting Communities opens the line of communication among agencies to ensure a streamlined, efficient response to all levels of emergency. Connecting Communities' content is catered to address potential emergencies specific to the location of the workshop.	#
Department of Transportation, Federal Transit Administration	Transit Chiefs' Safety And Security Roundtable	These conferences, jointly sponsored by DHS and the Department of Transportation, offer security and safety chiefs from transit agencies a roundtable format to discuss security and opportunities to work together and share best practices.	#

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

* Indicates programs which may include objectives, including disaster assistance, outside our use of the term "Preparedness."

Department / Agency	Program Title	Objectives	Program Number
Department of Transportation, Pipeline and Hazardous Materials Safety Administration	Interagency Hazardous Materials Public Sector Training and Planning Grants	To increase State, local, territorial and Native American tribal effectiveness to safely and efficiently handle hazardous materials accidents and incidents; enhance implementation of the Emergency Planning and Community Right-to-Know Act of 1986; and encourage a comprehensive approach to emergency planning and training by incorporating response to transportation standards.	20.703
Department of Transportation, Pipeline and Hazardous Materials Safety Administration	Hazardous Materials Emergency Preparedness Grant Program	The Hazardous Materials Emergency Preparedness Grant Program is intended to provide financial and technical assistance as well as national direction and guidance to enhance State, territorial, tribal, and local hazardous materials emergency planning and training. The Hazardous Material Emergency Preparedness Grants Program distributes fees collected from shippers and carriers of hazardous materials to emergency responders for hazmat training and to Local Emergency Planning Committees for hazmat planning.	#
Environmental Protection Agency, (EPA) Office of Solid Waste and Emergency Response	Hazardous Waste Management State Program Support	To assist State governments in the development and implementation of an authorized hazardous waste management program for the purpose of controlling the generation, transportation, treatment, storage and disposal of hazardous wastes.	66.801
Environmental Protection Agency, Office of Solid Waste and Emergency Response	Hazardous Waste Management Grant Program for Tribes	The purpose of the Hazardous Waste Management Grant Program for Tribes is to provide financial assistance to tribal governments and Tribal Consortia for the development and implementation of hazardous waste programs; for building capacity to improve and maintain regulatory compliance; and for developing solutions to address hazardous waste impacting Tribal lands.	66.812

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.

Department / Agency	Program Title	Objectives	Program Number
Environmental Protection Agency, Office of Water	Water Protection Grants to the States	The objective of this grant program is to assist States, territories, and possessions of the United States with critical water infrastructure protection.	66.474
Environmental Protection Agency, Office of Water	Water Security Training and Technical Assistance and Water Security Initiative Contamination Warning System Pilots	The objective of these grant programs are: (1) for financial assistance that is awarded under the Safe Drinking Water Act (SDWA) Section 1433, to improve water infrastructure security through both training and technical assistance for water utilities; and (2) for cooperative agreements that are awarded under the SDWA Section 1434, to address the risk of intentional contamination of drinking water distribution systems.	66.478
Environmental Protection Agency, Office of Solid Waste and Emergency Response	Chemical Emergency Preparedness and Prevention Technical Assistance Grants Program	To provide financial assistance to states, local agencies, and tribes for chemical accident prevention activities that relate to the Risk Management Program under the Clean Air Act Section 112(r). To provide financial assistance to Tribes for chemical emergency planning, and community right-to-know programs which are established to prevent or eliminate unreasonable risk to the health and environment of communities within the State.	66.810
Environmental Protection Agency, Office of International and Tribal Affairs	International Financial Assistance Projects Sponsored by the Office of International and Tribal Affairs	To protect human health and the environment while advancing U.S. national interests through international environmental collaboration. This mission is supported by these strategic objectives: (1) reduce exposure to toxic chemicals; (2) improve urban air quality; (3) reduce hazardous waste and improve waste management; (4) limit global Greenhouse Gas emissions and other climate-forcing pollutants; (5) improve access to clean water; and (6) build strong environmental institutions and legal structures.	66.931

Data in this report is as of August 2, 2010. The CFDA website is subject to updates; refer to www.cfda.gov for current information.
